Conference Organiser MTA NZ

Your event will:

- be on track and on time, with a professional keeping his eye on the big picture and focus, acting as liaison between venue staff, AV crew and speakers, dealing with both the mundane and the nitty gritty.

Your delegates will:

- retain your key messages and never become “conference comatose”. They will be refocused and enthused with “conference energisers” and “fun interactive magic”
- be guided and inspired to set goals and action steps, to put into practice the lessons from the conference
- get more value from their investment of both time and money, thereby increasing your attendance figures.

Your sponsors will:

- be thrilled at the extra attention, recognition and traffic they attract!

You will:

- have more free time, enabling you to accomplish the million other things that a Conference Chairman or Executive Officer needs to do, including having the freedom to relax and participate in the conference yourself
- have access to planning advice and suggestions. Timothy’s years of experience and insights will save both time and frustration.

“I thought he was excellent, a real pro! He was very well prepared, obviously took in his brief well and introduced the main speakers with aplomb. The way he related to our industry was extraordinary.”
